

VISION

“SCGJWD, most trusted and leading logistics brand in asean that can truly provide end to end logistics solutions delivering success and sustainability to customers and stakeholders through network coverage, insight and innovation”

Mission

1. Operate the business based on customer requirements, international standards, and relevant laws, creating capabilities for providing comprehensive End-to-End solutions to value added for customers.
2. Strive to become a leader in information technology development, enhancing the efficiency of logistics and supply chain management.
3. Initiate and build upon innovations in logistics services, continuously seeking opportunities and thinking holistically to offer new solutions for the needs of stakeholders in logistics and supply chain.
4. Continuously develop services to become a leader in logistics throughout the supply chain, emphasizing responsibility and fostering positive relationships with customers, business partners, society, communities, and the environment sustainably.

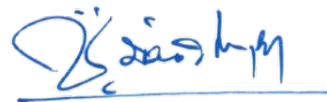

Quality Management System Policy

The company is committed to becoming a leader in providing comprehensive logistics and supply chain services, creating sustainable value for stakeholders. With a firm belief that customers are of utmost importance, customer satisfaction is the ultimate goal. The company will control services and manage logistics and transportation processes in accordance with customer requirements and relevant laws. Emphasis will be placed on developing personnel and information technology services to achieve maximum effectiveness and efficiency.
